PUT WOOD ON YOUR WALLS

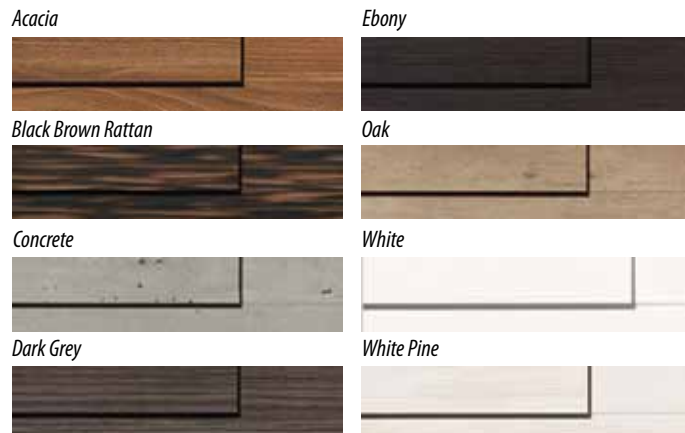

Easily transform your living space with the newest advancement in home décor: *wall system panels*. Three different widths and double grooves on each element create an impressive 3-D effect and add a rich atmosphere to any room. Bring your bedroom to life with a stunning accent wall, or take advantage of the remarkable durability of these products and modernize your bathroom or even sauna. This premium European product is environmentally friendly, durable and easy to install.

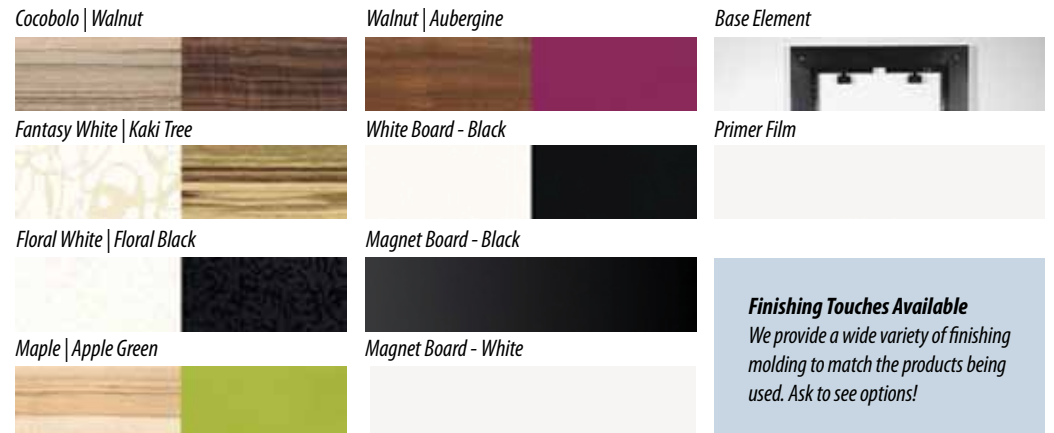

Surfaces | SP 300

SP 300 system panels have a double groove on each element as well as three different widths to create astounding 3-D effects.

Surfaces | SP 500

The reversible decorative elements in this collection combined with lighting elements or magnetic boards open up a wide range of possibilities.

Finishing Touches Available
We provide a wide variety of finishing molding to match the products being used. Ask to see options!
